

CYGNET.ONE

Success Story

**Leading FMCG company
generates real-time
ZATCA-approved invoices
with Cygnet's e-Invoicing
compliance platform**

The organization faced significant challenges in managing their invoicing process due to the high volume of transactions and the need for real-time compliance with ZATCA regulations. These challenges included processing many invoices daily, ensuring compliance across multiple systems, and achieving seamless connectivity with ZATCA for e-invoicing.

Obstacles That Hindered The Smooth Operation Of The Business

- Processing huge volumes of invoices daily
- Lack of adequate systems to validate bulk invoices as per ZATCA mandate
- Inability of POS & mobile devices to generate e-invoices in realtime as per ZATCA requirement
- Data consolidation from multiple sources that include mobile devices, ERP systems, and other upstream systems
- Seamless connectivity of each source system directly with ZATCA for e-Invoicing

Success Story

- Seamless integration with POS/ business systems/ERPs/ mobile devices
- Real-time generation of e-invoices for B2B & B2C with Cygnet's e-Invoicing API
- Generation of XML, hash of XML, UUID, Cryptographic stamp & QR code while managing the sequencing of the e-Invoices being raised from multiple systems simultaneously
- Deployed on private cloud with on-demand with fully compliant & customized e-invoice in PDF-A/3 format

Solution Deliverables

Process

Generated 5Mn invoices per month having minimal/zero impact on their business & supply processes

Compliance

100% compliance for all supply invoices issued from ERP & mobile devices

Cost

Our ready connectors ensured faster turn around enabling client for Phase-II implementation within 4 weeks
